Sabbatical, leave, policy, consultant, medical, staff, sabbatical leave policy, medical staff sabbatical leave policy
INTRODUCTION AND OVERVIEW

1.1 This document sets out the University Hospitals of Leicester Policy and procedure for consultant medical staff in relation to provisions for special leave known as Sabbatical Leave. In line with the National consultant’s terms and conditions, (Schedule 18, paragraph 17):-

“A consultant may apply for sabbatical leave in accordance with the employing organisation’s current arrangements. Any proposal for sabbatical leave should be made before the annual appraisal and considered in the annual Job Plan review”.

1.2 Sabbatical Leave at UHL is not an entitlement and is discretionary as outlined within the remit of this Policy. The basis for any proposed sabbatical will arise out of regular job plan reviews and/or appraisals and be subject to the agreement of the employer. The needs of the service and spreading the taking of sabbaticals across the consultant body within the organisation must be considered in determining when and how a sabbatical is undertaken. However, the timing and nature must also reflect the appropriate stage in the career and the particular interests of the consultant.

POLICY SCOPE —WHO THE POLICY APPLIES TO AND ANY SPECIFIC EXCLUSIONS

2.1 This policy applies to Consultant Medical Staff employed by the Trust.

2.2 Sabbatical Leave is a period of leave which may be granted to staff to pursue educational and developmental undertakings, such as research or other appropriate study away from the usual workplace which links to the individual's Personal Development Plan and career development and more widely to the Trust and NHS.

DEFINITIONS AND ABBREVIATIONS

3.1 Sabbatical Leave is a period of leave which may be granted to staff to pursue educational and developmental undertakings, such as research or other appropriate study away from the usual workplace which links to the individual’s Personal Development Plan and career development and more widely to the Trust and NHS.

ROLES – WHO DOES WHAT

4.1 Director of People and Organisational Development (P&OD) and Medical Director

The Chief Executive has nominated the Director of People and OD and the Medical Director as having lead responsibility for advising and leading the process of Sabbatical Leave applications for Consultant Medical Staff within the organisation.
4.2 The CMG Clinical Directors

The CMG Clinical Directors are responsible for implementing this policy and ensuring that applications are reviewed and approved in line with the specified requirements.

4.3 Consultant Medical Staff

Consultant Medical Staff wishing to apply for Sabbatical Leave must ensure that they comply with the Policy requirements before, during and after a period of approved leave.

5 POLICY IMPLEMENTATION AND ASSOCIATED DOCUMENTS – WHAT TO DO AND HOW TO DO IT

5.1 Sabbatical Leave is intended for the following:-

Consultants may wish to enrich and refresh their practice, improve their skills or may be looking towards service development.

Educational Sabbatical Leave which would strengthen the individual's clinical practice, or which can lead to or contribute to service improvement or development.

Some consultants may wish to use this time to give their full attention to a piece of work (for example, academic work) which they are otherwise unable to complete without the sessional time allotted.

Eligibility for application for applicants

Applications will be considered from all consultant staff who:-

5.2 Usually have a minimum of 5 years’ service in their current post as a consultant or honorary consultant employed by University Hospitals of Leicester NHS Trust. Where a consultant does not have 5 years’ service, a discussion should take place with the CMG Clinical Director and Medical Director regarding possible eligibility taking into account the details of the sabbatical period.

5.3 Have taken appropriate study leave entitlement (including being up to date with statutory and mandatory training requirements) in the previous three financial year periods in line with the Senior Medical Staff Study Leave Policy.

5.4 Undertake a commitment to remain employed at the Trust for two years following the return from sabbatical leave.

5.5 Are employed under a contract of employment or honorary contract for the majority of their working time at University Hospitals of Leicester NHS Trust (over 50% of their job plan time).

5.6 Have clear evidence of a tangible and measurable end point from the sabbatical that will:-
Enhance the Trust’s reputation
Strengthen an individual’s credibility and research standing
Enhance and improve patient care
Be suitable for publication (in the case of researchers) or can be the subject of a report which can be shared within the Trust
Improves national/international networks and collaborative working.

5.7 If the consultant is part way through a course that will not be completed if the Sabbatical Leave is approved, and has been supported by the Trust, ensure this is discussed with the CMG Director prior to any application being made.

Applications will need to demonstrate:

5.8 A fit with the research strategy (if the sabbatical leave is research based) of the Trust or professional discipline
5.9 A clear and quantifiable statement of purpose.
5.10 Why the work cannot be carried out under self-managed activity time.
5.11 Personal benefits in research development terms to the applicant.
5.12 Where applicable, Ethics Committee approval and support.
5.13 Opportunities to learn and develop not related to academic pursuits
5.14 Benefits in the life-long development of the individual and more widely to the Trust and NHS.
5.15 Links to the individual’s Personal Development Plan and career development.
5.16 At the conclusion of the Sabbatical Leave, consultants will be required to submit a written report, interim or final, to their line manager within three weeks of return. This will show how objectives have been met and include recommendations as to how outcomes can be applied into practice and shared within the Trust.

Financial and Contract of Employment Arrangements

5.17 Sabbatical leave may be taken on full pay, part pay or no pay subject to individual negotiation with the Trust. Paid sabbatical leave will require clear and tangible evidence of benefits to the Trust. The payment made will be subject to the financial position of the Trust, the application for the leave and impact on the service.
5.18 Where full or part pay is sought, the applicant must declare all expected earnings during the Sabbatical Leave.
5.19 The Sabbatical Leave period is usually for a minimum of three months and up to a maximum of six months. Consideration will be given to allowing Consultants who wish to take their annual leave as a block either at the start or end of their sabbatical leave period.
5.20 Where earnings or bursaries are made, the Trust may reduce pay so that the total income is not more than if the staff member had continued in normal service.

5.21 The general principle to apply is that the individual continues in the employment of the Trust and shall not benefit from additional earnings for time away from the principal job.

5.22 Where the individual is on no pay or part pay, national insurance and superannuation contributions will not be made by the Trust or will be proportionately reduced and the individual will be advised how to make self-arrangements for continuity of pension contributions.

5.23 Where necessary, the Trust will provide locum cover as well as holding the job open to be returned to.

Procedure for applying for sabbatical leave

5.24 The following procedure has been accepted by the Medical Local Negotiating Committee. If CMG Clinical Directors wish to apply for Sabbatical Leave, the process will be led through the Medical Director with adjustments, as appropriate, to the process below.

5.25 Consultants wishing to apply should self-nominate by submitting an application (see format at Appendix 1). Eligibility under sections five and six will be assessed on receipt of applications.

5.26 All applications should be discussed as part of the annual appraisal and personal development plan. Discussions should also form part of the annual job plan review. Sabbatical Leave must be requested through the Consultant Job Planner system.

5.27 Consultants should submit a completed application to their CMG Clinical Director for comments and endorsements as appropriate. It is envisaged that CMG Clinical Directors will, if necessary, liaise with the Medical Director at this point and any other appropriate staff. If CMG Clinical Directors wish to apply, the completed form should be sent directly to the Medical Director.

5.28 Applications should then be forwarded by the CMG Clinical Director to the Director of Workforce and Organisational Development and Medical Director (if not already received).

5.29 A panel comprising of the Medical Director, the Consultant’s CMG Clinical Director, Associate Medical Director Research and Development (if research linked application) and the Director of Workforce and Organisational Development will then consider the application. The consultant may be asked to present their submission to the panel. If required, the panel will meet within 1 month of receipt by the Director of Workforce and Organisational Development.

5.30 Decisions from this panel will receive final ratification for the Chief Executive, which will be dependent upon the Trust’s financial position in any given year.

5.31 If agreement is obtained, a Sabbatical Leave Agreement Letter will be discussed and agreed with the consultant(s) and his/her CMG Clinical Director.
5.32 The period of leave may be delayed until adequate cover arrangements are made.

5.33 In the event that the consultant wishes to return earlier than the agreed date, they should notify their CMG Clinical Director in writing as soon as possible and preferably at least one month before they wish to return. Every effort will be made to accommodate the request, subject to the needs of the service.

6 EDUCATION AND TRAINING REQUIREMENTS

The policy will be implemented via HR Business Partners/HR Leads and support will be provided to managers as required.

The policy is available on INsite.

7 PROCESS FOR MONITORING COMPLIANCE

7.1 Once a decision has been made, the manager should retain the request form and all associated correspondence in the individual’s personal file.

7.2 Audit results will be reported to the Senior Human Resources Team and if deficiencies are found action plans will be developed and implemented.

7.3 Implementation of action plans will be monitored via the Senior Human Resources Team.

**APPENDIX 2**

**Sabbatical Leave Flowchart**

**Step 1** Application template to be completed by applicant and submitted to the CMG Clinical Director.

Evidence required:

- Employed by UHL for a minimum 5 year service (including Hon Contract holders).
- Taken study leave entitlement (including being up to date with statutory and mandatory training requirements) in the previous three financial years.
- Enhance the Trust’s reputation.
- Strengthen an individual’s credibility and research standing.
- Enhance and improve patient care.
- Be suitable for publication (in the case if researchers) or can be subject of a report which can be shared with the Trust.
- Improves national/international networks and collaborative working.

**Step 2** Consideration by the CMG Clinical Director – discussed as part of annual job plan review.

Considerations required:

- A fit with research strategy (if research based) or applicant’s professional discipline.
- A clear and quantifiable statement of purpose.
- Explain why the work cannot be carried out under self managed activity time.
- Define personal benefits in research development terms to the applicant.
- Where applicable, have obtained Ethics Committee approval and support.
- Defined opportunities to learn and develop not related to academic pursuits.
- Defined benefits in the life long development of the individual and more widely to the Trust and NHS.
- Links to the individual’s personal development plan and career development.

**Step 3** Application forwarded from CMG Clinical Director to Medical Director (if research linked to Associate Director Research and Development) and the Director of Workforce and Organisational Development for consideration/approval of all the relevant parties.

**Step 4** Final ratification is considered by the Chief Executive.

**Step 5** Following consideration, if approved, a sabbatical leave agreement letter will be sent for signature by applicant and CMG Clinical Director.

(If approved - Commitment to remain employed at the Trust for two years following return from sabbatical leave)
