From:	Medical Director
Date:	30 May 2013
CQC regulation:	Outcome 16 – Assessing and Monitoring the Quality of Service Provision

Title:	UHL RISK REPORT INCORPORATING THE BOARD ASSURANCE FRAMEWORK (BAF) 2012/13
---------------	--

Author/Responsible Director: Medical Director

Purpose of the Report:

This report provides the Board with an update to the BAF and oversight of all high risks within the Trust and includes:-

- a) A copy of the Board Assurance Framework (BAF) as of 30 April 2013.
- b) A heat map of risk movements from the previous month.
- c) A summary of progress of actions due for completion in the reporting period.
- d) Suggested parameters for scrutiny of the BAF.
- e) An extract from the UHL risk register showing all high risks.

The Report is provided to the Board for:

Decision		Discussion	X
Assurance	X	Endorsement	

Summary :

- An updated version of the BAF is attached at appendix 1 with changes from the previous report highlighted in red text.
- There are 16 actions due for completion in April 2013 and of these, 8 have been completed, 7 have had deadlines extended and 1 action has been removed as no longer relevant. Two actions due for completion in June 2013 have already been completed.
- Following discussion at the previous TB meeting the following changes to the BAF have been included:
Increase in risk score to 25 for *'Failure to transform the emergency care system'*.
Risks are now presented in numerical sequence as opposed to risk score.
- Board members are invited to review the following risks:
Risk 3 Inability to recruit, retain, develop and motivate staff.
Risk 6 Failure to achieve FT status.
Risk 8 Failure to achieve financial sustainability.
- A draft BAF for 2013/14 is being developed by the UHL Executive team revision to the current action tracker in order to provide a more robust audit trail and an improved method of providing assurance to the Board that any actions to mitigate any risks are on trajectory. The newly developed BAF to be presented at the June 2013 Board meeting.
- The Board is asked to note the following extreme risk opened on 14 May 2013.
'Overcrowding in ED'
Details of which are attached at appendix 7.

▪	
<p>Recommendations: Taking into account the contents of this report and its appendices the Board is invited to:</p> <ul style="list-style-type: none"> (a) review and comment upon this iteration of the BAF, as it deems appropriate; (b) note the actions identified within the framework to address any gaps in either controls or assurances (or both); (c) identify any areas in respect of which it feels that the Trust's controls are inadequate and do not, therefore, effectively manage the principal risks to the organisation meeting its objectives; (d) identify any gaps in assurances about the effectiveness of the controls in place to manage the principal risks; and consider the nature of, and timescale for, any further assurances to be obtained, in consequence; (e) identify any other actions which it feels need to be taken to address any 'significant control issues' to provide assurance on the Trust meeting its principal objectives; 	
<p>Strategic Risk Register No</p>	<p>Performance KPIs year to date N/A</p>
<p>Resource Implications (eg Financial, HR) N/A</p>	
<p>Assurance Implications: Yes</p>	
<p>Patient and Public Involvement (PPI) Implications: Yes</p>	
<p>Equality Impact N/A</p>	
<p>Information exempt from Disclosure: No</p>	
<p>Requirement for further review? Yes. Future reports to include evidence of effective implementation.</p>	

UNIVERSITY HOSPITALS OF LEICESTER NHS TRUST

REPORT TO: TRUST BOARD

DATE: 30 MAY 2013

REPORT BY: MEDICAL DIRECTOR

SUBJECT: UHL RISK REPORT INCORPORATING THE BOARD ASSURANCE FRAMEWORK (BAF) 2012/13

1. INTRODUCTION

- 1.1 This report provides the Board with:-
- a) A copy of the Board Assurance Framework (BAF) as of 30 April 2013.
 - b) A heat map of risk movements from the previous month.
 - c) A summary of progress of actions due for completion in the reporting period.
 - d) Suggested parameters for scrutiny of the BAF.
 - e) An extract from the UHL risk register showing all high risks.

2. BAF POSITION AS OF 30 APRIL 2013

- 2.1 An updated version of the BAF is attached at appendix 1 with changes from the previous report highlighted in red text.
- 2.2 A heat map to show the movement of risk scores from the previous month is attached at appendix 2.
- 2.3 There are 16 actions due for completion in April 2013 and of these, 8 have been completed, 7 have had deadlines extended and 1 action has been removed as no longer relevant. Two actions due for completion in June 2013 have already been completed (See appendix 3 for further details).
- 2.4 Following discussion at the previous TB meeting the following changes to the BAF have been included:
- Increase in risk score to 25 for '*Failure to transform the emergency care system*'.
 - Risks are now presented in numerical sequence as opposed to risk score.

Progress against the BAF will be monitored on a monthly basis at a UHL Executive Team (ET) meeting.

- 2.5 To provide scrutiny and oversight of BAF risks on a cyclical basis, Board members are invited to review the following risks against the parameters listed in appendix 4.

Risk 3	Inability to recruit, retain, develop and motivate staff.
Risk 6	Failure to achieve FT status.
Risk 8	Failure to achieve financial sustainability.

- 2.6 At the April 2013 Board meeting it was suggested that an ET strategy meeting be used to enable the ET to ascertain whether we have the correct risks on the BAF in light of recent updates to the Trust's Annual Operating Plan. This was completed at the ET meeting on 7 May 2013 and a draft BAF for 2013/14 is in the process of development. Appendix 5 provides the Board with a list of risks to be included in the revised BAF along with their Executive sponsors and the Board will note that the 2013/14 version identifies 4 new risks as listed below:
- Ineffective strategic planning and response to external influences.
 - Failure to exploit the potential of IM&T.
 - Failure to achieve and sustain quality standards (replacing previous risks '*Reducing avoidable harms*' and '*Patient experience/satisfaction*').
 - Failure to achieve and maintain high standards of operational performance (replacing previous risk '*Failure to achieve and sustain operational targets*').

Further amendments will include a revision to the current action tracker in order to provide a more robust audit trail and an improved method of providing assurance to the Board that any actions associated with the BAF are on trajectory.

- 2.7 It is proposed that a final version of the 2013/14 BAF will be submitted to the June 2013 Board meeting.

3 UHL RISK REGISTER.

- 3.1 The UHL risk reporting framework requires a twice yearly report to be submitted to the Board for oversight of all high risks within the Trust. An extract from the UHL risk register is attached at appendix 6 showing this detail as at 30 April 2013. There is also a requirement for the Board to receive notice of any extreme risks (i.e. a score of 25) that have been opened during the month. To this end the Board is asked to note the following extreme risk opened on 14 May 2013.

- '*Overcrowding in ED*'.

This risk amalgamates two previous risks ('*overcrowding in ED*' and '*Inability to maintain acute patient flow to meet ED performance targets*') and is graded as extreme to reflect unresolved issues with over capacity in the department. A copy of the risk register entry is attached at appendix 7.

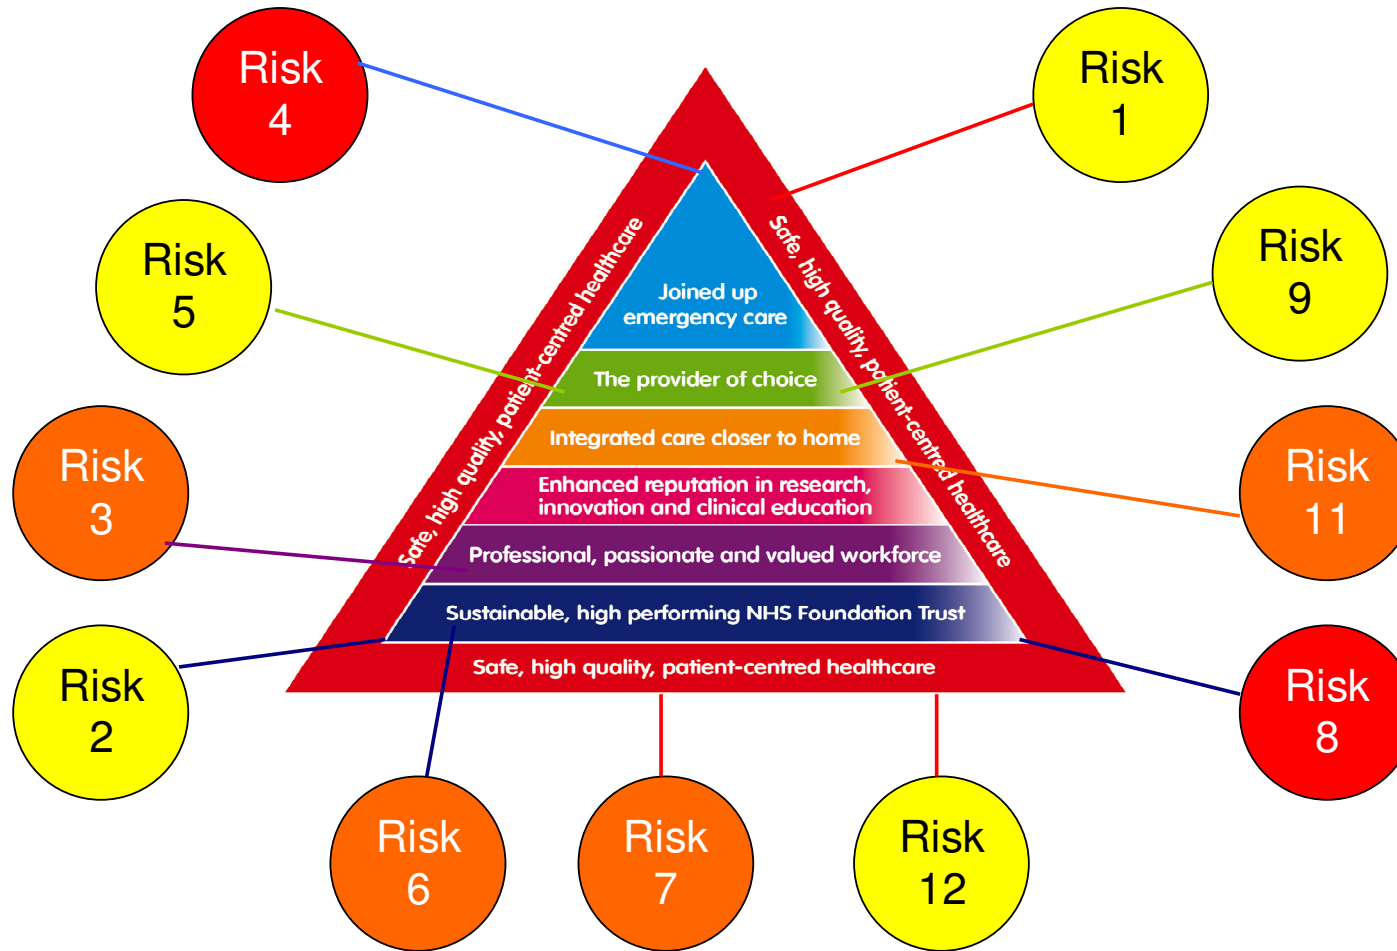

4. RECOMMENDATIONS

- 4.1 Taking into account the contents of this report and its appendices the Board is invited to:
- (a) review and comment upon this iteration of the BAF, as it deems appropriate:
 - (b) note the actions identified within the framework to address any gaps in either controls or assurances (or both);

- (c) identify any areas which it feels that the Trust's controls are inadequate and do not, therefore, effectively manage the principal risks to the organisation achieving its objectives;
- (d) identify any gaps in assurances about the effectiveness of the controls in place to manage the principal risks and consider the nature of, and timescale for, any further assurances to be obtained;
- (e) identify any other actions which it feels need to be taken to address any 'significant control issues' to provide assurance on the Trust meeting its principal objectives.

Peter Cleaver,
Risk and Assurance Manager,
22 May 2013.

BOARD ASSURANCE FRAMEWORK - APRIL 2013

UNIVERSITY HOSPITALS OF LEICESTER NHS TRUST – BOARD ASSURANCE FRAMEWORK

PERIOD: 1 APRIL – 30 APRIL 2013

RISK TITLE	STRATEGIC OBJECTIVE	CURRENT SCORE	TARGET SCORE
Risk 1 - reducing avoidable harms	a - To provide safe, high quality patient-centred health care	12	6
Risk 2 – business continuity	g - To be a sustainable, high performing NHS Foundation Trust	9	6
Risk 3 – inability to recruit, retain, develop and motivate staff	f - To maintain a professional, passionate and valued workforce e - To enjoy an enhanced reputation in research, innovation and clinical education.	16	12
Risk 4 – failure to transform the emergency care system	b - To enable joined up emergency care	25	12
Risk 5 – patient experience/ satisfaction	c - To be the provider of choice	12	6
Risk 6 – failure to achieve FT status	g - To be a sustainable, high performing NHS Foundation Trust	16	12
Risk 7 – ineffective organisational transformation	a - To provide safe, high quality patient-centred health care	16	12
Risk 8 – failure to achieve financial sustainability	g - To be a sustainable, high performing NHS Foundation Trust	25	12
Risk 9 – failure to achieve and sustain operational targets	c - To be the provider of choice	12	12
Risk 11 – failure to maintain productive relationships	d - To enable integrated care closer to home	15	10
Risk 12 – inadequate reconfiguration of buildings and services	a - To provide safe, high quality patient-centred health care	12	9

STRATEGIC OBJECTIVES:-

- a. To provide safe, high quality patient-centred health care.
- b. To enable joined up emergency care.
- c. To be the provider of choice.
- d. To enable integrated care closer to home.
- e. To enjoy an enhanced reputation in research, innovation and clinical education
- f. To maintain a professional, passionate and valued workforce
- g. To be a sustainable, high performing NHS Foundation Trust.

UNIVERSITY HOSPITALS OF LEICESTER NHS TRUST – BOARD ASSURANCE FRAMEWORK

RISK NUMBER / TITLE		RISK 1 - REDUCING AVOIDABLE HARMS					
LINK TO STRATEGIC OBJECTIVE(S)		To provide safe, high quality patient-centred health care					
EXECUTIVE LEAD:		Chief Nurse					
Principal Risk <small>(What could prevent the objective(s) being achieved)</small>	What are we doing about it? UNIVERSITY HOSPITALS OF LEICESTER NHS TRUST – BOARD ASSURANCE FRAMEWORK

RISK NUMBER/ TITLE:		RISK 3 – INABILITY TO RECRUIT, RETAIN, DEVELOP AND MOTIVATE STAFF					
LINK TO STRATEGIC OBJECTIVE(S))		To maintain a professional, passionate and valued workforce To enjoy an enhanced reputation in research, innovation and clinical education					
EXECUTIVE LEAD:		Director of Human Resources					
Principal Risk (What could prevent the objective(s) being achieved)	What are we doing about it? (Key Controls) What control measures or systems we have in place to assist secure delivery of the objective (describe process rather than management group)	Current Score x L	How do we know we are doing it? (Key Assurances of controls) Provide examples of recent reports considered by Board or committee where delivery of the objectives is discussed and where the board can gain evidence that controls are effective.	What are we not doing? (Gaps in Controls C) / Assurance (A) What gaps in systems, controls and assurance have been identified?	How can we fill the gaps or manage the risk better? (Actions to address gaps)	Target Score x L	Timescale When will the action be completed?
Inability to recruit, retain, develop and motivate suitably qualified staff leading to inadequate organisational capacity and development.	Leadership and talent management programmes to identify and develop 'leaders' within UHL.	4x4=16	Development of UHL talent profiles.	No gaps identified.	No actions required.	4x3=12	
	Talent profile update reports to Workforce and OD Committee.		No gaps identified.	No actions required.			
	Substantial work program to strengthen leadership contained within OD Plan.		No gaps identified.	No actions required.			
	Organisational Development (OD) plan.		A central enabler of delivering against the OD Plan work streams will be adopting, 'Listening into Action (LiA)' and progress reports on the LiA will be presented to the Trust Board on a quarterly basis. Reporting and monitoring of posts with 5 or less applicants. Quarterly report to senior HR team.	No gaps identified.	No actions required.		
	A central enabler of delivering against the OD Plan work streams will be adopting, 'Listening into Action (LiA)'. A Sponsor Group personally led by our Chief Executive and including, Executive Leads and other key clinical influencers has been established.		Progress reports on the LiA will be presented to the Trust Board on a quarterly basis.	No gaps identified. No gaps identified.	No actions required. No actions required.		
Staff engagement action plan encompassing six integrated elements that shape and enable successful and measurable staff engagement	Results of National staff survey and local patient polling reported to Board via Workforce and OD Committee on a six monthly basis. Improving staff satisfaction position.		No gaps identified.	No actions required.			

UNIVERSITY HOSPITALS OF LEICESTER NHS TRUST – BOARD ASSURANCE FRAMEWORK

		Staff sickness levels may also provide an indicator of staff satisfaction and targets for staff sickness rates are close to being achieved (4.1% at Month 12, 3.4% over a rolling 12 month period).	No gaps identified	No actions required.	
	Appraisal and objective setting in line with UHL strategic direction.	Appraisal rates reported monthly to Board via Quality and Performance report. Current rates 90.1% at end of month 12 (reduction of 1% over previous month).	No gaps identified.	No actions required.	
		Results of quality audits to ensure adequacy of appraisals reported to the Board via the Workforce and OD Committee.	No gaps identified.	No actions required.	
		Quality Assurance Framework to monitor appraisals on an annual cycle (next due March 2013).	No gaps identified.	No actions required.	
		Workforce plan to identify effective methods to recruit to 'difficult to fill areas). Divisions and Directorates 2013/14 Workforce Plans.	The use of locum staff in 'difficult to fill' areas is reported to the Board on a monthly basis via the Quality and Performance report. A reduction in the use of such staff would be an assurance of our success in recruiting substantive staff to 'difficult to fill' areas.	No gaps identified.	No actions required.
	Reward /recognition strategy and programmes (e.g. salary sacrifice, staff awards, etc).		(a) Reward and recognition strategy requires revision to include how we will provide assurance in the future that reward and recognition programmes are making a difference to staffing recruitment/ retention/ motivation.	Revise reward and recognition strategy.	Director of HR Oct 2013

UNIVERSITY HOSPITALS OF LEICESTER NHS TRUST – BOARD ASSURANCE FRAMEWORK

	<p>UHL Branding – to attract a wider and more capable workforce. Includes development of recruitment literature and website, recruitment events, international recruitment. This includes a recently held nurse recruitment day (Jan 2013).</p>		<p>Evaluate recruitment events and numbers of applicants. Reports issued to Nursing Workforce Group (last report 4 Feb). Report to Workforce and OD Committee in March. Positive feedback from nurse recruitment day on 26 Jan 2013.</p>	<p>(a) Better baselining of information to be able to measure improvement. (c) Lack of engagement in production of website material.</p>	<p>Take baseline from January and measure progress now that there is a structured plan for bulk recruitment. Identify a lead from each professional group to develop and encourage the production of fresh and up to date material.</p>	<p>Director of HR Dec 2013</p>

RISK NUMBER/ TITLE:		RISK 4 – FAILURE TO TRANSFORM THE EMERGENCY CARE SYSTEM					
LINK TO STRATEGIC OBJECTIVE(S)		To enable joined up emergency care.					
EXECUTIVE LEAD:		Director of Operations					
Principal Risk (What could prevent the objective(s) being achieved)	What are we doing about it? (Key Controls) What control measures or systems we have in place to assist secure delivery of the objective (describe process rather than management group)	Current Score x L	How do we know we are doing it? (Key Assurances of controls) Provide examples of recent reports considered by Board or committee where delivery of the objectives is discussed and where the board can gain evidence that controls are effective.	What are we not doing? (Gaps in Controls C) / Assurance (A) What gaps in systems, controls and assurance have been identified?	How can we fill the gaps or manage the risk better? (Actions to address gaps)	Target Score x L	Timescale When will the action be completed?
Failure to transform emergency care system leading to demands on ED and admissions units continuing to exceed capacity.	Emergency Care Action Team formed. Chaired by Chief executive to ensure Emergency Care Pathway Programme actions are being undertaken and any blockages to improvement removed	5x5=25	Monthly report to Trust Board in relation to Emergency Dept (ED) flow. Trust has an improvement trajectory. Weekly performance will be monitored against the trajectory and reported to Execs and Trust Board.	ED performance not achieving targets. UHL (+ UCC) Type 1 and 2 = 91.9% YTD (M11). UHL Type 1 and 2 = 89.8% YTD (M11). In month (M 11) UHL (+ UCC) Type 1 and 2 = 84.7% . UHL Type 1 and 2 = 80.4% .		4x3=12	
	Increased recruitment of ED Medical and nursing staff.		Monthly Quality and Performance summary report to TB including use of locum staff.	(c) Difficulties are being encountered in filling vacancies within the emergency care pathway. Agency and bank requests continue to increase in response to increasing sickness rates, additional capacity, and vacancies. Staffing vacancies for medical and nursing staff remain high.	Continued fortnightly meetings with HR to highlight delays and solutions in the recruitment process. Continue to advertise for permanent and locum consultant positions.		Director of Operations Ongoing review of progress Director of Operations Ongoing review of progress May 13
	LLR Emergency Plan to ensure that delays to transfer of care are minimised.		Monthly report to Trust Board in relation to Emergency Dept (ED) flow.	(c) Lack of availability of rehabilitation beds for increasing numbers of patients. 169 delayed episodes of transfer of Care (M12).	Head of Operations is working with community on process for increasing scope of beds available in community		Head of Operations Jul 2013

UNIVERSITY HOSPITALS OF LEICESTER NHS TRUST – BOARD ASSURANCE FRAMEWORK

	Emergency Care Pathway Programme to enable a comprehensive and co-ordinated approach to the design and implementation of process improvements across the end-to-end patient flow for our ED attendees and medical non-elective patients.		Monthly report to Trust Board in relation to Emergency Dept (ED) flow.	(c) ED performance against target not being sustained. <i>'What is not working'</i> key themes are Resourcing, Clinical Leadership, Untimely flow onto base wards and Entrenched behaviours.	Via key stakeholders (medical, nursing and managerial) enforce steps to address the core issues:		Director of Operations Review Jun 2013
	Metrics in place in relation to AMU assessment process.		'Time to see consultant' metric included in National ED quarterly indicator.	No gaps identified.	No actions required.		
	External review of Emergency Care Network (ECN)		The CCG's have commissioned a review of the role and operations of the ECN. Will be available end of May 2013	No gaps	No actions required		
	All 'extra capacity areas' are to be kept open.		All winter capacity beds are to be kept open until the target is consistently met	(c) Lack of nursing staff can restrict amount of capacity being opened	Recruitment to permanent ward nursing establishment		Head of Nursing Acute Division. Ongoing review

What are we not doing? (Gaps in Controls C) / Assurance (A) What gaps in systems, controls and assurance have been identified?	How can we fill the gaps or manage the risk better? (Actions to address gaps)	Target Score x L	Timescale When will the action be completed?
Levels of patient satisfaction/experience may deteriorate leading to poor reputation and deterioration in Net Promoter scores.	Patient experience plan and associated projects. Patient Experience Strategy incorporated into Goal 3 of the Quality & Safety Commitment 2012 – 2015.	4x3=12	Patient experience progress reports to Quality Assurance Committee (QAC). Patient stories presented at Trust Board. Discharge project outcomes (i.e. delayed transfer of care) reported to the Discharge and Transfer of Care (DTC) Group and monthly to the emergency Care Network and Clinical Quality Review Group (CQRG). Data included in monthly Quality and Performance report to Trust Board.	(c) Trust-wide communications of patient experience learning.		2x3=6	
	Net Promoter scores to identify key areas for focus.		Ongoing Patient Experience surveys Net Promoter scores reported monthly to Trust Board via Q&P report. Improving picture in relation to Net Promoter scores (64.5% @M12).	No gaps identified.	No actions required.		
	Caring @its best, releasing time to care initiatives and implementation of UHL Quality and Safety commitment (launched Jan 13). Key priorities: Reducing harm, reducing mortality rates and improving the patient experience.		Caring @ its best awards Improving patient experience reports. Improved infection prevention outcomes. 0 MRSA cases reported to end of Mar 13. YTD MRSA cases = 2. Target = 6 C. Difficile currently below trajectory. 94 cases YTD to end of Mar 13 against full year target of 103.	(c) Lack of supervisory headroom for ward managers.	Implement proposal for ward managers to have rostered supervisory time in line with Francis recommendations.		Chief Nurse Review Jun 2013

UNIVERSITY HOSPITALS OF LEICESTER NHS TRUST – BOARD ASSURANCE FRAMEWORK

	Patient experience programme (across 85 clinical areas to gain feedback from patients relating to their experience of care) and national patient survey.		Ongoing Patient Experience surveys. Net Promoter scores reported monthly to Trust Board via Q&P report. Annual reporting to trust board of national patient survey.	No gaps identified. No gaps identified. (c) Absence of support facility at main entrance to respond to patient/public concerns.	No actions required. No actions required. Space to be identified for provision of PILS support and 3 rd sector support		Director of Comms/Direct or of Nursing May 2013
	Trust values instilled within UHL staff.		UHL staff awards demonstrating individuals who demonstrate the values. Ongoing Patient Experience surveys. Net Promoter scores reported monthly to Trust Board via Q&P report.	No gaps identified.	No actions required.		
	Patient Adviser engagement at divisional level to ensure consistent involvement in the development of services.		Patient Advisors meet bi-monthly and these meetings are minuted and as such their involvement is formally captured. Non-attendance at two or more meetings triggers contact from UHL to see if they are still active and engaged.	(a) No current mechanism to monitor involvement Healthwatch to provide assurance of involvement/ engagement. (c) Evidence to suggest lack of PPI involvement in early stages of service developments.	Further work is required with Healthwatch to establish protocols and monitoring processes as they develop. PPI strategy to be revised/ rewritten and launched via communication campaign. Integrated as part of the Quality & Safety Commitment. Develop PPI training programme and toolkit for managers. Review and refresh PPI leads post divisional restructure.		Director of Comms and External Relations Sep 2013 Director of Comms and External Relations Sep 2013 Director of Comms and External Relations Oct 2013 Director of Comms and External Relations May 2013

UHL BOARD ASSURANCE FRAMEWORK SUMMARY REPORT – PERIOD ENDING
APRIL 2013

Risk No	Risk Title	Current Risk Score (Apr 13)	Previous Risk Score (Mar 13)	Target Risk Score and Final Action Date	Risk Owner	Comment
1	Reducing avoidable harms	12	12	6 – Review May 13	Chief Nurse	
2	Business continuity	9	9	6 – Aug 14	Director of Operations	
3	Inability to recruit, retain, develop and motivate staff	16	16	12 – Dec 13	Director of HR	
4	Failure to transform the emergency care system	25	12	12 – Review May 13	Director of Operations	
5	Patient experience/satisfaction	12	12	6 – Oct 13	Chief Nurse	
6	Failure to achieve FT status	16	16	12 – Apr - 15	Chief Executive Officer	
7	Ineffective organisational transformation	16	16	12 – 2013/14	Director of Finance and Business Services	
8	Failure to achieve financial sustainability	25	25	12 – May 13	Director of Finance and Business services	
9	Failure to achieve and sustain operational targets	12	12	12 – Review Nov 13	Director of Operations	Deadline extended to reflect re-configuration of surgical beds to create a 'protected area' for surgical patients.
10	Loss of reputation			n/a	n/a	
11	Failure to maintain productive relationships	15	15	10	Director of Comms and External Relations	
12	Inadequate reconfiguration of buildings and services	12	12	9 – Dec-13	Chief Executive Officer	

UHL BOARD ASSURANCE FRAMEWORK SUMMARY OF CHANGES TO ACTIONS – APRIL 2013

Risk No.	Action Description	Action Owner	Comment
1	Resource requirements identified and to be discussed at ET on 16/4/13	Chief Nurse/ Deputy Chief Executive	Complete. Agreement reached for CQUIN proposal to be funded. Now a control.
1	2013 CQUIN and quality negotiations.	Chief Nurse/ Deputy Chief Executive	Complete. Final CQUIN agreed with commissioners. Now a control.
1	Ongoing education from the operational leads for each harm during the monthly data collection and validation process.	Chief Nurse/ Deputy Chief Executive	Complete. Monthly meetings with operational/clinical and managerial leads for each harm in place. Now a control.
1	Utilisation of CQUIN monies for 2013/14 to invest in data collection posts at ward level to improve data quality and release time of ward managers to focus on reducing harms.	Chief Nurse/ Deputy Chief Executive	Complete. Bids constructed with lead SRO. Analytical time included in requests.
2	Training Needs Analysis to be developed to identify training requirements for staff.	Director of Operations	Complete.
2	Develop an appropriate training programme and supporting materials for staff involved in the planning and response to an incident. Training and education materials to be produced in line with ISO 22301 and National Occupational Standards	Director of Operations	Complete. Training packages in place for on-call managers. Next stage to develop tailored training packages for service area staff
2	Ensure that contracts awarded include reference to business continuity commitments and providing	Director of Operations	Complete. Documented evidence from key critical suppliers has been collected

UHL BOARD ASSURANCE FRAMEWORK SUMMARY OF CHANGES TO ACTIONS – APRIL 2013

	assurances to the Trust of their arrangements.		
2	Determine an approach to delivering a physical testing of the IT Disaster Recovery arrangements which have been identified as a dependency for critical services. Include assessment of the benefits of realistic testing of arrangements against the potential disruption of testing to operations.	Chief Information Officer	Ongoing. Deadline extended to September 2013.
2	All CBUs require a Business Impact Assessment to identify critical services	Director of Operations	Ongoing 1 CBU still to complete. Action for CBU to complete BIA by May 2013.
2	Review IT service continuity arrangements against the recovery requirements determined by the BIAs to validate existing arrangements.	Chief Information Officer	Ongoing. IM&T have assessed the impact of their own BIAs and have taken/planned any appropriate action. IM&T are waiting for the CBUs BIAs to complete this work. IM&T are working closely with the emergency planning officer to ensure that this is fully coordinated. Action to be further reviewed May 2013.
3	To develop a monitoring and reporting process for the number of applicants received for advertised (due June 2013)	Director of HR	Complete. Posts with 5 or less applicants to be reported to and reviewed quarterly at the HR senior team meeting. This will commence with June adverts.
3	Revise reward and recognition strategy.	Director of HR	Ongoing. Deadline extended from June 2013 to October 2013 to align with the development of a Pay Progression Policy
4	Via key stakeholders (medical, nursing and managerial) enforce	Director of Operations	Ongoing. Action to be reviewed in June 2013 to ascertain whether steps to

UHL BOARD ASSURANCE FRAMEWORK SUMMARY OF CHANGES TO ACTIONS – APRIL 2013

	steps to address the core issues:		address the core issues have been embedded.
5	Develop proposal for the ward managers to have rostered supervisory time in line with Francis recommendations.	Chief Nurse/ Deputy Chief Executive	Complete. Proposal in place and part of cost pressure discussions at ET rostered for 23 rd April and 30 th April. The proposal now needs to be implemented in order to be an effective control. Action reworded and timescale for review extended accordingly.
6	Collaborative delivery programmes to be agreed by the BCT Board / partner organisations	Chief Executive Officer	Ongoing. Continued dialogue between Chief Officers to determine future delivery structures and robust governance arrangements for BCT (programme director and collaborative delivery teams). It was anticipated that this would be agreed at BCT Board meeting 18/4/13. Further work on the accountability framework, delivery programme definition and scope is required and will be presented in May to Chief Officers Meeting for consideration (May 2013). Governance arrangements to maintain control of the overall LLR BCT economic Model was agreed by BCT Programme Board on 18/4/13 (April 2013). Deadline extended to May 2013.
6	Integrate outcome of the BCT economic modelling into UHL's improvement framework / future configuration of services (Due June 2013)	Chief Executive Officer	Complete. Economic modelling is now incorporated into the Trust Reconfiguration Strategic Outline Case (SOC) structure and process.
7	Interim transformation resources	Director of Finance and Business Services	Complete. Phillip Burns, CIP Programme Manager started 7 May to support the 13/14 CIP Programme and develop the 14/15 schemes
7	Board level sponsorship and Leadership	Director of Finance and Business Services	Complete. The Head of Service Improvement and Head of Transformation will report to the CEO, and be an integral part of the Improvement and Innovation Framework

UHL BOARD ASSURANCE FRAMEWORK SUMMARY OF CHANGES TO ACTIONS – APRIL 2013

9	Development of key metrics at a local level	Director of Operations	Ongoing. Deadline for review extended to July 2013 due to CCGs wanting involvement in setting metrics.
9	Urgent assessment of the gap between what is required and what is provided.	Director of Operations	Ongoing. All the tumour sites have submitted an assessment of their capacity constraints relating to the diagnostic element of the 62 day pathway and an urgent assessment of the gap between what is required and what is provided is being undertaken. A significant proportion of these gaps are in imaging modalities mainly relating to turnaround times for tests and reports. Action to be reviewed in May 2013
9	Planned care to perform urgent review of Cancer Centre management structure to ensure ownership of entire cancer pathway at tumour site level.	Director of Operations	Complete A senior clinician appointment on an agreed number of sessions to work closely with all cancer MDT's has been agreed by the Planned Care Division. In addition the Data manager (vacancy) in the cancer centre had been appointed to and they will start in post 15th May. Two additional tracking posts, 1 specifically to support urology, but also to provide cross cover are anticipated to be in post during June. An additional senior tracker role is also being appointed to; and this role will provide additional management support to the tracking and MDT process.
9	Consider inviting NHS Interim Management and Support team to review and advice in relation to process.	Director of Operations	Action removed from BAF as no longer thought necessary. May appear again if improvement not forthcoming
12	Establish monthly ET Strategy Session	Chief Executive Officer	Complete

AREAS OF SCRUTINY FOR THE UHL BOARD ASSURANCE FRAMEWORK (BAF)

- 1) Are the Trust's strategic objectives S.M.A.R.T? i.e. are they :-
 - **S**pecific
 - **M**easurable
 - **A**chievable
 - **R**ealistic
 - **T**imescaled
- 2) Have the main risks to the achievement of the objectives been adequately identified?
- 3) Have the risk owners (i.e. Executive Team) been actively involved in populating the BAF?
- 4) Are there any omissions or inaccuracies in the list of key controls?
- 5) Have all relevant data sources been used to demonstrate assurance on controls and positive assurances?
- 6) Is the BAF dynamic? Is there evidence of regular updates to the content?
- 7) Has the correct 'action owner' been identified?
- 8) Are the assigned risk scores realistic?
- 9) Are the timescales for implementation of further actions to control risks realistic?

Acute Professional Services	Risk to the production of aseptic pharmaceutical products	03/05/2007	<p>Causes Provision of aseptically prepared chemotherapy is being undertaken from a temporary rental unit. Temporary nature and age of facility indicates high probability of failure. Arrangements for segregation of in-process and completed items is inadequate leading to high possibility of error. Current temporary unit is outside the range of the department's temperature monitoring system. Failure of refrigerated storage will remain undetected outside working hours, and has already occurred. Planning permission for temporary unit only valid until August 2012 Contingency arrangements are insufficient and could only provide for the very short term. Project is already 6 months behind schedule Storage, receipts and dispensing facility for dose-banded chemotherapy and other outsourced items purchased. Alternative arrangements will need to be found when unit is refurbished</p> <p>Consequences Failure of Current Temporary Facility; Inability to provide 50% of current chemotherapy products for adult services. Inability to provide chemotherapy for paediatric services. Substantial delay in re-establishing service provision from alternative supplier Limitations of treatments that can be sourced from an alternative supplier. Inability to support research where aseptic compounding required. High cost of sourcing required products from alternative supplier at short notice. Increase in datix incidents pertaining to the Aseptic Unit.</p>	Business	<p>Planned servicing & maintenance of existing facility being undertaken. - Constant environmental monitoring of facility in place. - Alternative preparation facility being maintained as contingency although only adequate for short term contingency and not recommended for preparation of chemotherapy. N.B. this option may be lost depending on the outcome of the business case for a permanent solution for the aseptic dispensing service. - <input type="checkbox"/> Contingency arrangement for supply from external source currently being pursued. - <input type="checkbox"/> Business Case for new unit (refurbishment of facility within the Windsor building) has been presented and approved by the commercial exec board in 2011. - <input type="checkbox"/> Facilities are working with Pharmacy and commercial architects in order to finalise plans and get refurbishment started</p>	Extreme	Likely	20	<p>Evaluation of tenders & contact awarded -30/4/13 Sign off from chairman - 7/5/13 Build to commence - 22 week contract - 30/06/13 Build complete, unit in operation - 31/07/13</p>	3	↕	SC/JA	12

Nursing Corporate	Exceeding agreed numbers of pre-registration nursing and midwifery students allocated to placements	30/06/2010	<p>Causes: UHL Bed reduction programme and reconfiguration of services has caused a reduction in available clinical placements.</p> <p>Consequences: Increasing the number of students allocated to a clinical placement, above the audited (i.e. the agreed number) will have a direct impact on the quality of the learning which takes place. Increasing ratio of students to mentors may increase the risk of unsafe practice and subsequent patient harm. Students are not exposed to the range of learning experiences to ensure progression through training and fitness to practice at point of registration. Increased numbers of students will result in mentors being unable to spend time observing practice and ensuring that skills are developed and sustained over a period of time. Potential for students to pass their outcomes without sufficient evidence to support that decision. No assurance that mentors will be able to commit the time required to each and every student, therefore increasing the risk that students will practice unsupervised. Trust's ability to demonstrate the maintenance of high quality Trust may fail to meet the requirements within the Learning</p>	Patients	<p>Placements for the immediate future have been completed and the situation has stayed the same since the last assessment. However, the situation needs to be closely monitored by the PLLs and Assistant Director of Nursing as the next round of placements for October 2012 will be in the planning stage in June 2012 and as previously highlighted, it is anticipated that there will be an increased capacity concern from June 2012 onwards Any increase, or decrease, in numbers is agreed between the Placement Manager and the PLL based on the most recent staffing information. The LLR Placement Strategy is implemented in partnership with De Montfort University. Current status is Green for the Management of Capacity for Students on Commissioned Pre-registration Nursing and Midwifery Programmes in Leicester, Leicestershire and Rutland as existing students have been placed Continue to strengthen and empower the role of the Student Link Nurse. Where any additional ward or department closures takes place, resulting in the loss or change of the learning environment, the Practice Learning Lead will All learning environments will be audited annually to Student evaluations completed following placements Update June 2012 - DMU are aware of the potential Update October 2012 - DMU are aware of the potent</p>	Major	Likely	15	<p>The LLR Workforce Development team to be informed of the demands on placements - 31/03/2014 Updates to be given at the next Health and Life Sciences Meeting by the Assistant Director of Nursing - 31/12/13 Practice Learning Leads (PLLs) to monitor any Trust reconfiguration to establish the impact on the learning environment and the support of students. - 31/12/2013 PLLs to ensure that when changes occur to clinical areas; there is communication with student nurses, midwives and all learners accessing the placement area and their Higher Education Institutes - 31/12/2013 PLLs to provide local support to Student Link Nurses and mentors - 31/12/2013 PLLs and Assistant Director of Nursing to work in partnership with colleagues across LLR and De Montfort University to ensure adherence to the LLR Placement Strategy and to work collaboratively to develop new placement areas - 31/12/2013 PLLs and Assistant Director of Nursing to ensure UHL continues to meet the requirements of the Learning Development Agreement - 31/12/2013 Regular updates on progress /issues to be reported</p>	9	↕	SC/JA	12

Operations Corporate	Risk of inaccuracies in clinical coding	02/08/2011	<p>Causes HISS constraints (HRG codes not generated) High workload (coding per person above national average) Inaccuracies / omissions in source documentation (e.g. case notes may not include co-morbidities, high cost drugs may not be listed) Inability to provide training to large groups of coders due to lack of time and financial constraints</p> <p>Consequences Loss of income (PbR) Outlier for CHKS/HSMR data Non- optimisation of HRG Loss of Trust reputation</p>	Economic	<p>Coding improvement project initiated April 2011. Project Board commenced 5th September 2011 (PID, project plan and highlight report agreed). Electronic coding implemented February 2012 and to be upgraded November 2012 - HRG code generated. Will aid with audit, implementation of local policies and performance management. Task and finish groups completed in Divisions review improvements in coding using PeRL, PLICs, CHKS and medicode (encoder). New process for medical records retrieving notes. Due to changes in recording and payment of EDU and CAU episodes number of episodes coded has reduced. Shifts from day case to outpatient will reduce workload. Lead clinicians identified and Trust wide communication to move coding closer to the clinician. Tick lists introduced in both the ward area and discharge letter. Bank staff and overtime authorised to meet deadline. Scorecard developed to demonstrate improvements and benchmark against other Trusts. Two additional coders accredited 3 year refresher programme completed November 2011. Quarterly updates/briefings to be led by Asst Director Coder workshops on all 3 sites during May to review £6m additional income generated in 2011/12 (mixtu Improved audit results Regular progress updates to F&P and GRMC. Clinical Coding Manager has a regular slot on Trust</p>	Major	Likely	15	<p>12 month coding project commencing 01/04/11 - project manager appointed - PID agreed - complete Implement electronic encoder software for use by coders and clinicians - completed Scoping exercise to identify future business/resource need - 31/1/13 Clinical coding dashboard bringing a range of published metrics together - complete Consultant and clinical staff accurately recording diagnosis, co-morbidities and complications - complete Internal audit programme to be developed complimented with an annual external audit. - complete Review the priority of this risk after go live with the encoder as all actions will have been taken - 31/1/13 External PbR Audit - 2 areas 31/1/13</p>	8	↕	JT/AS	8

Acute	Insufficient Echo provision cross-site	07/08/2012	<p>Causes Insufficient BSE accredited Cardiac Physiologists for level of current/increasing demand. Staffing levels will reduce further during the next few months due to resignation and adoption leave of 2.0 WTE experienced/senior BSE Cardiac Physiologists.</p> <p>Consequences Failure to meet National Diagnostic Target for New referrals - loss of reputation; financial penalties. Failure to meet internal standard (<48hrs) for I/P (New) referrals - increased LOS; delays for further treatment/intervention Failure to perform Planned workload - hampers clinicians to manage patient's care effectively for this group of patient's who are at an increased risk of a significant clinical event. Increased risk of RSI's for Physiologists. Staff retention & recruitment issues - due to very limited training (including Mandatory); essential development in routine/advanced techniques; low staff morale; loss of key staff.</p>	HR	Cardiac physiologists working additional hours to avoid National Target breaches for New referrals. SAC (some slots available on same day as O/P consultant visit) for Planned referrals not performed prior to OP appointment. Clinicians also able to re refer and change planned referral to New referral if Echo not performed prior to OP appointment. All new referrals attract 5 wk target.
